FOR A LESS BLACK AND  
MORE GREEN FUTURE

SOURCETEXTILE

Cofinanciado por:

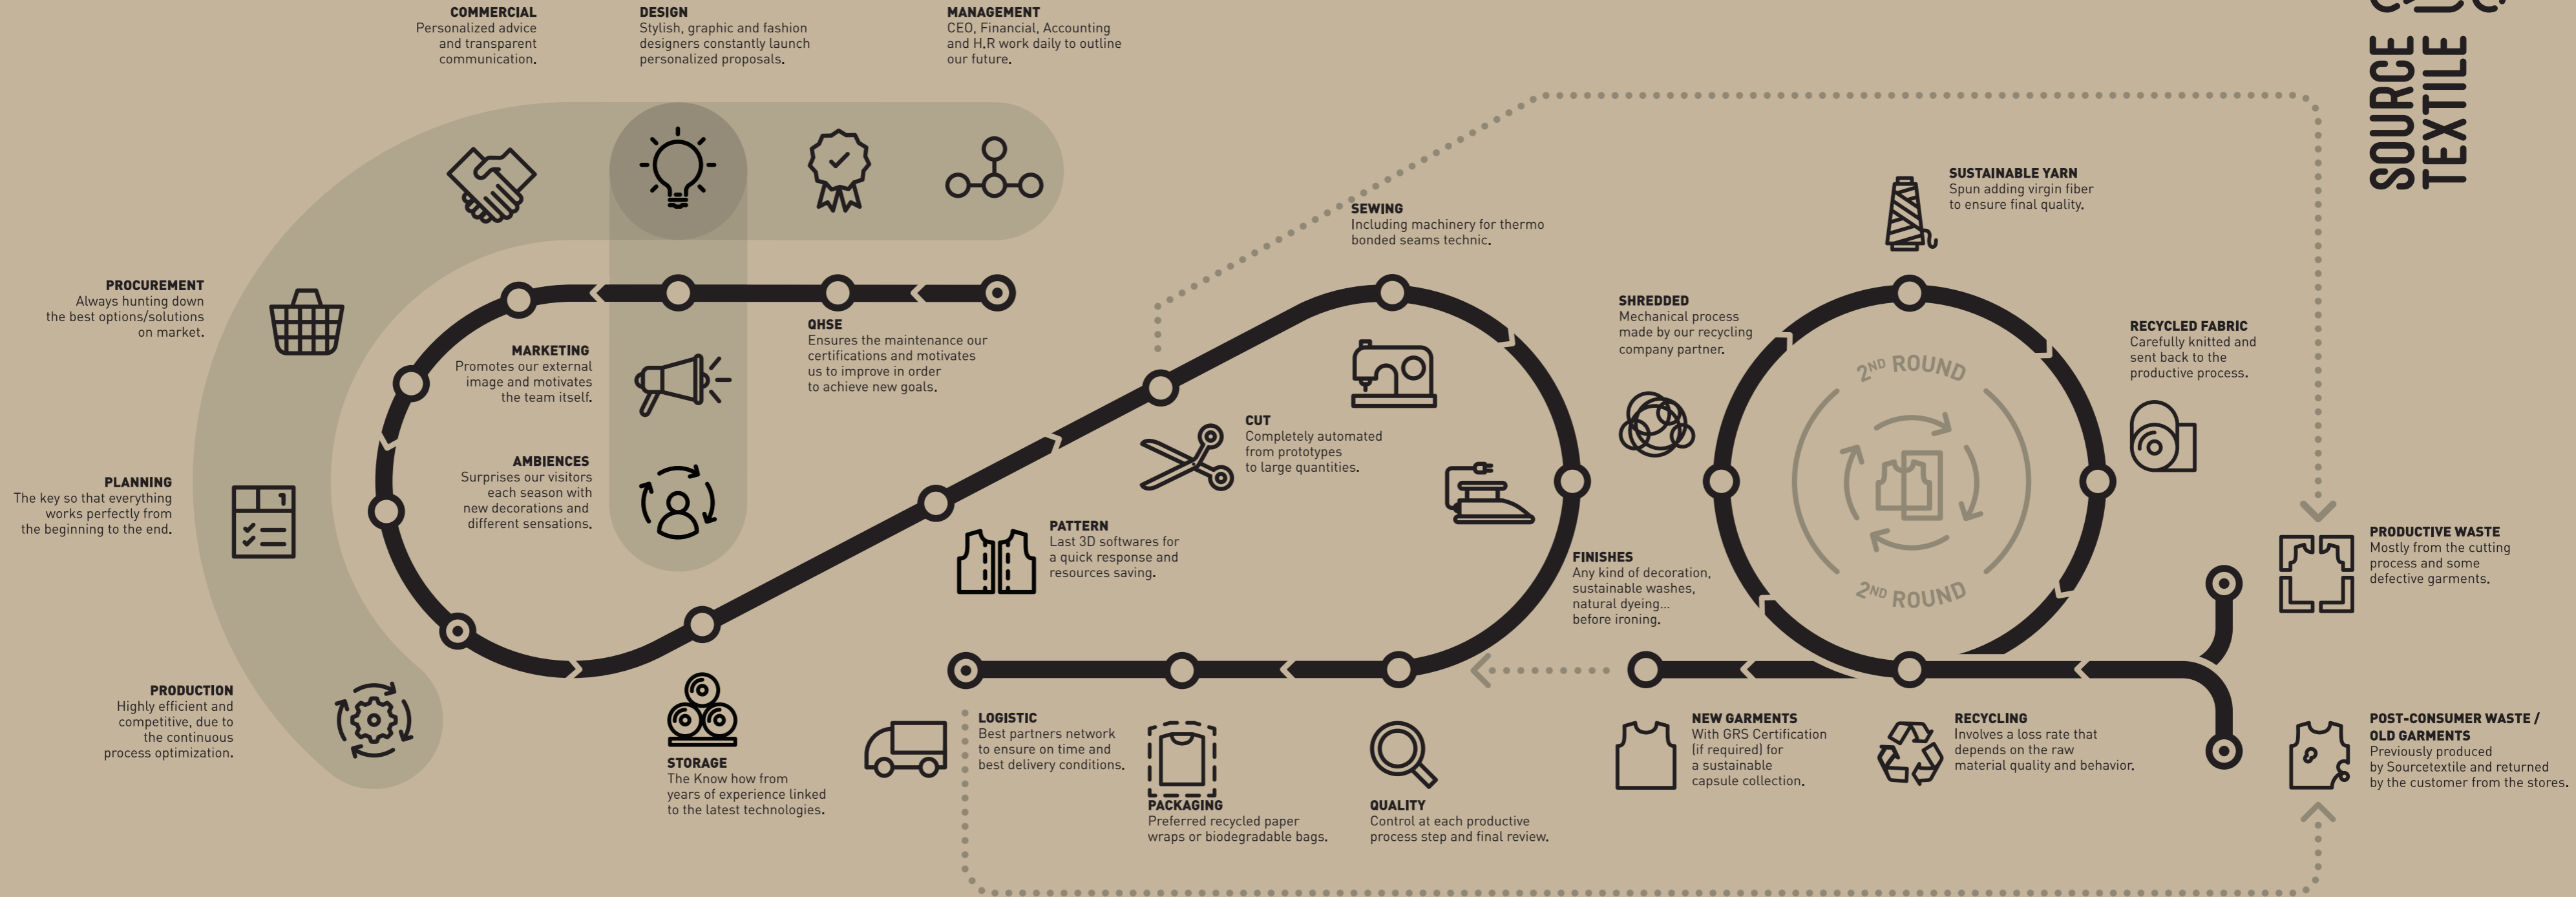

**SOURCETEXTILE** emerged in 2006 committed to contribute to the transformation of one of the most pollutants industries in the world. Making this challenge our strategy, today we rely with more than 300 collaborators working together for a better world.

Fair work and the excellent working conditions, combined with good practices that characterize us, making our company a reference in the sector, finding solutions to let in **A LESS BLACK AND MORE GREEN FUTURE.**

We defend the **FROM PORTUGAL** to offer to the international market, creation, development and production of circular knited garments that have made our customer community reconsider the price-quality ratio.

We work based on renewable energy, we privilege the use of organic/recycled materials and favour the free chemical process, on a completely vertical work system adapted to the needs and requirements of each project /brand.
